Matt Dunkle, El Molino Principal echoed Grace's sentiments regarding the El Molino school spirit. The student body has had great enthusiasm. El Molino night was November 4 which the venue and process of the evening changed. Mr. Dunkle thanked Mark Ballard and Seth Friesen who were very instrumental in organizing this function. This was the coming out party for the band, first time they performed at this function. The leadership students will be heading out to feeder schools for outreach. E. SUPERINTENDENT

- Mr. McDonald reported the District has been in contact with Registrar of Voters office, they will not be able to certify the election until Thanksgiving week and the new Board members will be seated at December 10 Board meeting.
- Mr. McDonald reported he was invited to Sonoma State last Monday to tour Weill Hall. An invitation has been extended to our schools to perform at Weill Hall with a combined district wide music performance. The use of the hall will be at no charge, the schools cannot charge and this cannot be a fundraiser. This is an exciting opportunity to showcase our music programs, looking at the possibility of performing next fall.

possibilities of repurposing space in the art studio. It is exciting to see ideas coming into focus. The next meeting is Thursday, December 11.

- Local Control Accountability (LCAP) -
 - Stakeholder engagement plan for 2014-2015
 - State is changing LCAP format for 2014-2015Mr. McDonald reported this is a work in progress; it is very similar to last year with a few streamlines. The District is obligated to review and revise plan. We are awaiting the State Board of Education to adopt a revised template so we can proceed.

Trustee DeSart seconded the motion. Approved by 4 yes, 0 no, 1 absent. Trustee Noe, absent, Trustee DeSart, yes, Trustee Walker, yes, Trustee Landry, yes, Trustee Twitchell, yes. Student Advisory Vote: 2 yes, 0 no, 1 absent.
- B. CONSIDERATION OF APPROVAL OF ANALY BAND ROOM DESIGN AND PERMISSION TO SUBMIT DESIGN TO DIVISION OF STATE ARCHITECT -Mr. McDonald introduced Kevin Chapin from Quattrochi Kwok Architects. Mr. Chapin reviewed the Anly band room design, there has been a lot work put into this design by the committee. Mr. Chapin reviewed the following:
- Features and low maintenance and drought resistant landscape
 - Anticipated schedule once design is approved
 - Heavy work could start in June/July 2015
 - Reviewed the costs of the project
 - Submission to the Division of State Architect
- The following discussion took place regarding:
- Possibility to fundraise to help with costs of trophy walls
 - Bidding could start early spring
- Trustee Walker moved to approve the Anly Band Room Design and Permission to Submit Design to Division of State Architect. Trustee Landry seconded the motion. Approved by 4 yes, 0 no, 1 absent. Trustee Noe, absent, Trustee DeSart, yes, Trustee Walker, yes, Trustee Landry, yes, Trustee Twitchell, yes. Student Advisory Vote: 2 yes, 0 no, 1 absent.
- C. CONSIDERATION OF SYNTHETIC TURF FIELDS FOR ANALY AND EL MOLINO STADIUM PROJECT DESIGNS – Mr. McDonald reported within recent weeks there was an article published by NBC News which raised concerns regarding the possible connection with rubber infill and incidents in cancer among young student athletes. It is important to point out the news article did not provide a scientific study, it voiced concern. This is a timely discussion because the final design on both Anly and El Molino stadium projects are scheduled for the School Board meeting in December. Mr. McDonald introduced Michal Rosales from GSM and Don Manthy from QKA, and Maintenance Director, Jennie Bruneman. Mr. Rosales reviewed the following:

Minutes – November 12, 2014 – Page 6

- Reviewed alternative materials
- GSM provided product samples to pass around to the Board and audience
- Cost analysis
- Less information on alternative materials
- Life cycles of alternative products

The following discussion took place regarding:

- Materials that require shock pad to prevent injuries
- Chemical makeup, different gases, what has OSHA said about the out gases, toxicological aspects
- Material and safety sheets on all the products
- Has NIKE investigated the materials they use?
- Look to see what information is available from manufacturers
- What kinds of cancer are reported
- No scientific connection that these products have been linked to cancer
- Individual opinion that tires are the safest rubberized material
- Remind everyone the article is very general the article does not compare any other factors
- Would only vote for the cryogenic rubber
- Most colleges and professional stadiums use the rubber, where cost is not an issue
- Cost of natural grass
- Discuss at next meeting with safety sheet and cost of grass
- Waste of time to look at any other substance it will delay the process and set the project back
- Any delay will put our home seasons in jeopardy and destroy momentum
- If it is decided to go with a different surface it will likely need to be redesigned at least a 2-3 month delay
- No change in timeline if delayed one month on a decision to use the rubber
- Not about time delays it is about being sensible
- Where does the burden of proof lie?
- Role as a district leadership team, in California, charged with making policy decisions for our school district, we have to rely on best information provided to us by professionals, we use police department, insurance carriers, we rely on various state agencies, safe yellow buses, what building materials, based on best available information that is given to us by individuals that are the professionals.
- Concern to do an exhaustive evaluation on this matter, rely on regulatory best information available
- Analy coaches and staff are 100% behind the use of the turf it is the best use of the facility, CIF all stated not to change from rubber field, good benefit in the future
- El Molino coaches and Athletic Director, and staff support going forward with what has been proposed
- Appreciate that different opinions can be made – thank you
- Good to be exhaustive
- Important thing is that the conversation has been made

- F. EMPLOYMENT-RELATED TRANSFERS – Mr. McDonald reported at the October Board meeting the Board directed administration to place this matter on the November agenda for further discussion. The employment related transfers are a form that is used and developed by the Sonoma County Office of Education. These forms do not request information on student discipline issues or participation in special needs programs. After further research employee related transfers will not have an impact for our District employees. If the District continues to use the Employment Related forms then policies need to be put in place. The following discussion took place regarding:
- Grandfather in the existing transfers

DATE: December 10, 2014

ITEM: **CONSIDERATION OF APPROVAL OF BOARD CERTIFICATION AND DISTRICT ADOPTION OF DISTRICT ADOPTION OF STANDARDS-ALIGNED INSTRUCTIONAL MATERIALS FOR ADVANCED PLACEMENT HUMAN GEOGRAPHY (EL MOLINO)**

BACKGROUND INFORMATION:

Education Code requires that school district boards yearly certify the sufficiency of standards-aligned instructional materials in core subjects. District policies and administrative regulations establish procedures for evaluating and selecting instructional materials.

The District uses an instructional materials adoption calendar which is coordinated with the state framework and standards revision cycles. However, the District adopts textbooks that are not on the text adoption calendar when new courses are approved by the Board for addition to the District curriculum.

In May, 2014, the Board approved Advanced Placement (AP) Human Geography as a new course to be taught at El Molino High school for fall 2014.

CURRENT CONSIDERATION:

John Grech, Social Studies Teacher at El Molino, is recommending the District adopt a text aligned with state Social Studies standards and frameworks for use in the Advanced Placement Human Geography course currently taught at El Molino. The recommended text is The Cultural Landscape: An Introduction to Human Geography, James Rubenstein, Pearson Publishing, 2014 (11th edition), ISBN 0-13-292658-X.

The appropriate Department Chairs and administrators at El Molino and Analy have expressed their support for adopting this recommended text.

The Board held a first reading of this matter at the regular Board meeting in November. At this time, the Board will consider certifying and adopting the recommended text for AP Human Geography.

RECOMMENDATIONS:

Administration recommends the Board certify the recommend text for AP Human Geography as standards-aligned and adopt the text for use in the District.
